

A BIRDER'S CHECKLIST

Birds of the Pyramid Lake Paiute Indian Reservation

Field Checklist of the

Birds of Pyramid Lake, NV

This list contains 243 species (includes 5 hybrid species) which have been observed within the reservation boundaries. The list also provides 6 subspecies or identifiable morphs. The reservation is part of the Pacific Flyway and Anaho Island is a nesting refuge to the migratory American White Pelican. Data was supplied by through 22 years of effort by birders and volunteers of the Great Basin Bird Observatory, Lahontan Audubon Society, Nature Conservancy, and the Tribe.

Please submit all bird observations to eBird.org.

Abundance

- A** Abundant; widespread, usually easily found in appropriate habitat
C Common; fairly easily found in appropriate habitat
U Uncommon; usually eventually found in appropriate habitat
R Rare; seldom, but somewhat regularly found in appropriate habitat
Acc Accidental; only found in some years

Occurrence

- W** Winter; December - February
Sp Spring; March - May
Su Summer; June - August
F Fall; September – November
