Attention valuable customer,

PLPT Telecom is in the process of making changes to move all billing and support for the PLPT internet service in-house to the Pyramid Lake Paiute Tribe. We are transitioning away from DTS, who will no longer be providing support for customers or billing. As we make this transition, all monthly payments will be on hold until we can get our new system up and running. We will notify customers when it is. There will be no back payments to make during this period. Please refer all questions and concerns about the internet to Shoshauna at the Pyramid Lake Paiute Tribe from now on, as we are no longer working with DTS.

If you have any questions, you can contact the Technology Department with the Pyramid Lake Paiute Tribe at 775-574-2450 or email us at [internet@plpt.nsn.us](mailto:internet@plpt.nsn.us).

Lastly, if you have not updated your contact information with the tribe, please call or email us to get that updated. We will need it to be able to transfer it over to our new system.

Thank you,

Technology Services Executive Assistant
